SUMMARY

Mobile App Developer with nearly **3 years** of experience building, shipping, and maintaining production applications. Specializing in **React Native / Expo and TypeScript**, with experience in real-time systems, push notifications, state management, and cross-platform releases. Also skilled in full-stack development with React and modern backend technologies.

SKILLS

Languages: JavaScript, TypeScript, Dart, Java
Mobile: React Native, Expo, Flutter, Skia
Web & Backend: React, Node, Express, Bun, Hono, REST APIs, Firebase
Libraries & Tools: React Query, Redux, Zustand, WebSockets, OneSignal (push notifications), MongoDB, Turso, Drizzle ORM, Git, Postman

EXPERIENCE

Mobile App Developer *Mar 2026 – Present*
Sparkwave Infotech Pvt Ltd | Remote
- Develop and maintain mobile applications, handling feature implementation, debugging, performance optimization, and Android/iOS deployments.
- Build end-to-end features involving WebSockets for real-time communication, OneSignal notifications, and offline-first functionality.
- Optimize server-state management with React Query caching, mutations, and query invalidation, reducing redundant API calls and improving app responsiveness and UX by 50%.

React Native Developer *Jun 2024 – Dec 2025*
Techasoft Pvt Ltd | Bengaluru
- Developed mobile applications from scratch, owning app architecture, versioning, maintenance, and Play Store/App Store deployments.
- Maintained 15+ React Native applications, handling production debugging, React Native and native module upgrades, and compliance with evolving store guidelines.
- Implemented state and server-state management using Redux, Zustand, and React Query to improve data handling and reduce redundant network requests.
- Built animation-rich interfaces and interactive onboarding experiences using RN Skia, achieving 2x FPS rendering.
- Integrated CodePush/Revopush for over-the-air bug fixes and feature updates.

Software Developer Intern *Dec 2023 – May 2024*
Nano Robotics Embedded Technologies | Bengaluru
- Developed responsive React.js applications and RESTful APIs using Node.js, Express.js, and MongoDB.
- Collaborated with senior developers on debugging, API integration, and improving application reliability.

PROJECTS

NoteAI
Expo | Local-first | Offline support | RAG | CLIP embeddings
- an **AI-assisted** note-taking app designed around **local-first** use and **offline support**.
- Uses text and image vector embeddings with a **CLIP** modal to make note content retrievable as contextual information.

VishnuPriyaSilks
Expo | Bun | Hono | WebSockets | OneSignal
- Built a product showcase experience with a polished mobile UI/UX and inventory-management functionality for store administration.
- Integrated WebSockets for customer-to-store-manager chat and OneSignal for promotional and chat notifications.

AsciiCam
Expo | Mobile camera | Image processing
- Built a side project that converts live camera video feed and uploaded images into ASCII-character artwork.
- Supports capturing and saving photos to the gallery and adjusting output resolution.

EDUCATION

B.E. in Computer Science and Engineering | *HKBK College of Engineering, Bengaluru* *2019 – 2023*
Relevant coursework: Data Structures & Algorithms, OOP, Databases, Operating Systems, Computer Networks, Machine Learning
